VANDERBILT UNIVERSITY

Mar 1, 2024

Naim Salim

has successfully completed the online, non-credit Specialization

Android App Development

This Specialization enables learners to successfully apply core Java programming languages features & software patterns needed to develop maintainable mobile apps comprised of core Android components, as well as fundamental Java I/O & persistence mechanisms. Learners who successfully complete this Specialization will be well-prepared to master the more advanced material in the subsequent "Mobile Cloud Computing with Android" Specialization. The Capstone project will integrate the material from the Specialization to exercise and assess the ability of learners to create an interesting Android app by applying knowledge and skills learned in previous MOOCs.

Java for Android

Android App Components - Intents, Activities, and Broadcast Receivers

Android App Components - Services, Local IPC, and Content Providers

Engineering Maintainable Android Apps

Capstone MOOC for "Android App Development"

Dr. Douglas C. Schmidt, Professor, Dr. C. Jules White, Assistant Professor, Dr. Jerry Roth, Associate Professor of Practice, Dr. Julie Johnson, Assistant Professor of Practice, Mr. Michael Walker, Instructor, Computer Science
